Michael Jordan - An Introduction to Probabilistic Graphical Models

A: Graphical models (introduction)

B: (2) Conditional Independence and Factorization

C: (3) The Elimination Algorithm

D: (4) Probability Propagation and Factor Graphs

E: (4) Markov Properties

F: (17) The Junction Tree Algorithm

G: (7) Linear Classification

H: (9) Completely Observed Graphical Models

I: (11) The EM Algorithm

J: (8) The Exponential Family and Generalized Linear Models

K: (10) Mixtures and Conditional Mixtures

L: (13) The Multivariate Gaussian

M: (1) Sampling Methods
